

Submitting a Section 138 Application

This guide provides steps on how to submit a Section 138 of the Roads Act (Section 138) application online to participating roads authorities via the NSW Planning Portal (the Portal).

To submit a Section 138 application via the Portal, you will need an NSW Planning Portal account. If you do not already have an account, please refer to our *Registering for the NSW Planning Portal* quick reference guide.

Overview

- A roads authority is the consent authority that assesses and determines Roads Act applications. The roads authority is most commonly a council, but it can also include State agencies.
- Applicants can apply under one or more sections (Sections 125, 138, and 144) of the Roads Act in one application.
- Applicants can apply for a new approval or renew an existing one.
- The roads authority will assess and determine each section of the Roads Act separately.

Throughout the online application form, there are four commonly used symbols and links.

Symbol	Description
*	A red asterisk indicates a mandatory field.
	A blue triangle in the bottom right-hand corner of a field indicates predictive text. As you begin to type, this feature makes suggestions based on what you have typed so far. Select the correct option from the list.
	An Information icon indicates a tooltip. When you hover your mouse over the icon, helpful information will display.
What is this?	This is a hyperlink. When you click on this link, additional information will display. Click on the  in the top right-hand corner of the field to close it.

The Consolidated application form displays. This completes the Pre-lodgement stage.

The screenshot shows the 'Consolidated application form' interface. At the top, the reference number 'RA-2022-209' is highlighted in a red box and marked as 'Submitted'. Below the header, there are navigation buttons: 'Copy to new application', 'Request related application', 'Actions', and 'Close and home'. A progress bar indicates the 'Pre-lodgement' stage is complete. A green success message states: 'Success - Your application has been submitted. Thank you, your Roads Act application has been submitted to the relevant roads authority. The roads authority will review the application and may contact you if additional information is required. You can track the progress of your application via your NSW Planning Portal dashboard using the reference number RA-2022-209.' Below this is a 'Please provide your feedback' button with thumbs up, comment, and thumbs down icons. At the bottom, there are tabs for 'Case details', 'Documents', 'Payer details', 'Analytics', and 'Related cases'. Under 'Case details', there are expandable sections for 'Applicant details', 'Application details', 'Roads Act - Works and structures (Section 138) details', and 'Declarations'.

When you click Submit:

- The system creates a Consolidated application form that has a unique identifying number with the prefix 'RA' (RA-YYYY-XXX).
- The Consolidated application form, a **read-only** application, allows you to apply for one or more sections of the Road Act in one application. Please note that you cannot perform any actions from the Consolidated application form.
- The system also creates a **separate** application for **each section** of the Roads Act that requires approval. Links to these section applications are available in the Related Cases tab.
- Each section application is also assigned a unique RA identifying number.

As an example, if you apply for one section of the Roads Act, say a Section 138, then the system will assign two unique RA identifying numbers, one for the Section 138 application and one for the Consolidated application form.

Alternatively, if you apply for two sections of the Roads Act at the same time (say Section 125 and Section 138), then the system will assign three unique RA identifying numbers, one each for Sections 125 and 138, as well as one for the Consolidated application form.

- The system generates a Roads Act (RA) application form, which includes details of all sections of the Roads Act that require approval.
- You can find your Section 138 application in Active work on your Dashboard and the Consolidated application form in Completed work also on your Dashboard.

- Five tabs will display:
 - Case details – contains information entered by you during the pre-lodgement stage.
 - Documents – will include links to all documents uploaded by you, the roads authority and any system-generated documents.
 - Payer details
 - Analytics – this is a high-level milestone marker.
 - Related cases – includes links to the Consolidated application form, the Section 138 application and any related section applications that require approval. As the section application(s) progress, this tab will also include links to any child/sub cases created such as requests for information and referrals to agencies.

The information contained in the tabs is read-only and for the Section 138 application will grow as the application progresses. These tabs can also be viewed by the roads authority.

1. To review the information entered, **click** the Case details tab and **click**

Expand  to display the details.

2. As soon as you submit your application, you can perform any of the following actions:

- a. Copy to new application – start a new Roads Act application. The system will copy the details from this application to a new one.
- b. Request related application – start a Complying Development Certificate or a Development Application related to your Roads Act application.

c. Actions menu:

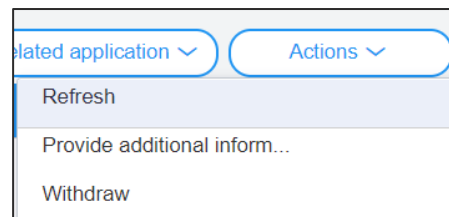

From the Consolidated application form, your only option is to Refresh your screen.

From the Section 138 application, which you can open from the Related cases tab or from Active work on your Dashboard, you can provide additional information to the roads authority or withdraw the Section 138 application.
